Dear doctor Jurczynszyn,

Herewith I acknowledge the receipt of your proposal for developing a Myeloma Treatment Foundation in Poland. As chairman of the European Myeloma Network, and also in my position as specialist in the field of treatment and research of multiple myeloma, I warmly support your initiative. It is my opinion that multiple myeloma should be treated in specialized centres who are capable of providing State of the art treatment and coordinating pre-clinical and clinical research activities.

Herewith I give my full support to the Myeloma Treatment Centre.

Sincerely yours,

Prof. P. Sonneveld
Hematology and internal medicine specialist
