To Whom It May Concern:

I am pleased and honored to support Dr. Artur Jurczyszyn's application to be the host for the 2024 International Society of Amyloidosis (ISA) Annual Meeting in Krakow, Poland.

Dr. Jurczyszyn has extensive experience hosting professional meetings of the highest quality in Krakow over the last 10 years. I have been a speaker in a number of the International Conferences in Complex Treatment of Plasma Cell Dyscrasias, and I can authoritatively state that these meetings are a highlight of my yearly speaking activities. Not only the speakers list features A-listers from the United States and Europe, Dr. Jurczyszyn is also a gracious host and promotes thoughtful social activities, including tours of the city and historical and picturesque surroundings, receptions in unique places and also lunch and dinner venues that showcase the diversity and quality of Polish hospitality.

Krakow is a beautiful city and has become one of my favorite places to visit in the world. Krakow possesses a number of unique historical buildings including medieval churches, castles and palaces as well as world class museums. I truly believe Krakow will provide a unique experience to the attendees to the 2024 ISA meeting.

For all these reasons, I provide the strongest support to Dr. Jurczyszyn's application. Please, do not hesitate to contact me if you had questions about the content of this letter. I would like to thank you for your time and attention.

Sincerely,

Jorge J. Castillo, MD
